Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Are you looking for a great opportunity to showcase your project management knowledge and skills If so, consider this opportunity with the Ministry of Government and Consumer Services, Infrastructure Technology Services.

We are currently recruiting for highly skilled I&IT Project Managers who will plan and lead projects, manage internal client stakeholder relationships, oversee leadership for project teams, and provide guidance and expertise on the use of information technology in client business planning and business improvement initiatives.

What can I expect to do in this role

In this role, you will:

- manage all phases of multiple medium- to large-scale complex I&IT projects
- ensure project deliverables meet clients' business requirements on time, within scope and on budget, and follow Ontario Public Service (OPS) project management methodologies and frameworks
- provide technical leadership and expertise in risk and issues management and in implementing best practices

Location(s): Oshawa, Toronto

How do I qualify

Project Management Knowledge and Experience:

- You demonstrate experience managing all phases of concurrent I&IT projects, including medium- and large-scale, technically complex projects across a range of enterprise technologies.
- You have experience developing and maintaining detailed resource-loaded project schedules.
- You have in-depth knowledge of I&IT project management standards, tools, techniques and methodologies, including Project Management Institute (PMI), Information Technology Infrastructure Library (ITIL), and industry best practices.

Technical Knowledge and Experience:

- You demonstrate knowledge of I&IT technologies, industry trends and offerings to support project deliverables.
- You have technical skills and expertise in contributing project roles.
- You have strong knowledge of financial and controllership management to develop and manage project budgets.
- You have procurement knowledge to support acquisition of software solutions, hardware and services (i.e. business cases, request for information, request for proposals, award, statement of work, etc.).

Communication Skills:

- You have communication, consultation, negotiation and mediation skills, to determine client requirements, make presentations, prepare proposals, business cases and tenders, and write procedures.
- You have persuasion, advisory, and relationship management skills, to explain the risks and benefits of specific solutions, tools and approaches, and to recommend specific courses of action.
- You can resolve conflicts, and develop and sustain effective working relationships.

Technical Leadership and Change Management Skills:

- You demonstrate experience in providing technical leadership, training and advice to project teams.
- You are able to provide technical expertise, and develop and manage project plans, budgets and resources successfully.
- You have change management skills to proactively and strategically manage the human factors associated with change.

Organizational and Problem-Solving Skills:

- You can identify I&IT technical, operational or other issues, conduct analyses, and determine the most appropriate course of action to resolve them.
- You can assess and mitigate risks, issues and constraints, and recommend action plans.
