

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Ministry of Transportation and Infrastructure: Multiple locations

This position is located in Coquitlam and may be performed from these locations: Victoria, Prince George and Kamloops based on operational requirements.

Structural Liaison Manager

\$80,638.63 - \$105,799.68 annually plus 6.5% Recruitment and Retention Adjustment

The main purpose of the Structural Liaison Section is to provide operational highway structural engineering services, technical advice, and management expertise. As well, the Section provides operational expertise and field experience for the setting of standards and guidelines for the management of structural consultant designs and engineering standards and practices.

The Structural Liaison Manager reports to the Provincial Manager, Structural Design and Construction and functions in a dynamic and changing environment which involves leading design teams and supplying expertise to consultant design teams working for the Ministry. This position is responsible for technical audits and value engineering assignments for highway designs delivered by external design teams.

Qualifications for this role include:

- University degree in Civil Engineering or equivalent post-secondary degree.
- Must be registered, or immediately eligible for registration as a Professional Engineer with the Association of Professional Engineers and Geoscientists of B.C.
- o Note: immediately eligible for registration is defined as currently registered as a Professional Engineer in another Canadian jurisdiction, and able to obtain registration in BC within 6 months of employment.
- A minimum of 7 years of related experience.
- Preference may be given to applicants with 10 or more years of related experience.
- Experience participating in highway structural design and construction of projects of considerable scope and complexity.
- Experience supervising and/or providing direction to staff or project teams.
- Experience working with, and providing advice and counsel to, senior management and

executives; and building effective working relationships with a variety of internal and external stakeholders.
