

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Commercial Communications AdvisorReference Code: 92208 Location: Canada (CA) - Calgary, AB

Job Category: Communications/Marketing

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 10/22/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. To remain competitive, support our high-performance culture and allow for more flexibility in the way we work, we offer a hybrid work model and flexible dress code for our eligible office-based workforce in Canada, the U.S. and Mexico. The opportunityOur Operations Planning Department is evolving to meet the needs of our growing business and we are expanding our presence in Calgary to support Capacity Management. We are seeking a Commercial Communications Advisor who has knowledge and experience in facilitating externally facing operational engagement and acting as a liaison between departments. As a Commercial Communication Advisor, you will have proven experience in facilitating external facing operational engagement and act as a conduit between the Commercial Marketing and Operations Planning organizations. This position is critical to ensuing quality and consistent external engagement and allows the Operations Planning team to effectively focus on Commercial Operations priorities of outage execution and capacity enablement. This role provides the opportunity to expand your knowledge of the Canadian regulated pipeline business and the natural gas industry. What you'll do

- Be accountable for any externally facing communication and the external communication processes related to Operations Planning. External communications may include Customer Express bulletins, Customer Operations Meetings and customer requests for reporting
- Act as a conduit between the Commercial Marketing and Operations Planning and be the single point of contact for customer and marketing support related to Commercial Operational inquiries
- Partner with Outage Planners for accurate information in order to respond to inquiries effectively and in a timely manner
- Develop, present and update the team site for the daily operational briefing to the Commercial, Nominations and Field Managers, ensuring accuracy and identifying / actioning enhancement and streamline opportunities
- Attend all Customer Operations Action Team meetings and manage all development and execution of related initiatives
- Manage operational data tracking and related reporting and complete monthly tracking and reporting of all externally communicated outages, notification dates and variance for outage metrics compliance
- Provide background on operational highlights and identifying noteworthy upcoming outages for internal leader communications
- Develop inputs, assumptions and the STFT (Short term Firm Transport) process for all monthly and ad hoc evaluations of capacity availability and associated risks

- Facilitate the monthly outage forecast meeting to provide general awareness of upcoming outages and gain feedback on issues or opportunities and provide input on DOP (Daily Operating Plan) outage communications, ensuring effective socialization and compliance

Minimum Qualifications

- Relevant post-secondary education, preferably a bachelor's degree in Commerce, Management, Economics, Engineering or related
- Six (6) or more years related experience
- Strong interpersonal skills and an ability to establish effective and relevant relationships with customers and internal stakeholders to achieve business goals
- Excellent written and verbal communication skills
- Work effectively in a rapidly changing environment with changing priorities
- Demonstrated team player

Preferred Qualifications

- Ability to understand both commercial and operational principles, and an ability to articulate those effectively to external parties and senior management
- Familiarity with Canadian pipeline systems and transportation services and understanding of supply and market fundamentals in the Western Canadian Sedimentary Basin
- Demonstrated business acumen, including a strong understanding of key business issues for natural gas producers, markets and storage
- Working knowledge of the NGTL operations (including flow paths, linepack management, operational tools and processes) or experience with a similarly complex system and existing Tariff services and natural gas markets
- Ability to lead, influence and have an impact without direct authority
