

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Business Analyst - Business Planning & Enablement Reference Code: 97922 Location: Canada (CA) - Calgary, AB

Job Category: Information Technology/Systems

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 01/28/2022 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. To remain competitive, support our high-performance culture and allow for more flexibility in the way we work, we offer a hybrid work model and flexible dress code for our eligible office-based workforce in Canada. The opportunity We are evolving to meet the needs of our growing business. We are seeking a Business Analyst - Business Planning & Enablement who will focus on enabling the Canada Gas 5-year business strategy through definition of its digital roadmap and oversight of its delivery. You will be working with all areas of Canada Gas business to review/define strategic goals and targets, identify digital and data opportunities and translate them into actionable and impactful digital projects. You will partner with Information Systems (IS) and other business units to ensure fast delivery, no duplication and timely value realization. What you'll do

- Facilitate development of digital roadmaps supporting Canada Gas 5-year business strategy: identify highest value digital and data opportunities, define target capabilities and outcomes
- Liaise with Business Partners and IS to ensure solutions meet current and strategic needs
- Partner with IS to steward delivery of digital solutions against digital roadmap outcomes and to plans (cost, schedule, quality)
- Facilitate and coordinate annual Canada Gas IS Portfolio planning process, prioritizing and

rationalizing portfolio of opportunities against Business and Digital roadmap outcomes

- Manages all digital and pilot activities for portfolio, aligning efforts and value across delivery teams
- Collaborate, share and reused US Gas, Liquids and Power and storage digital solutions to accelerate value delivery
- Monitor and optimize portfolio OM&A spend against long term Roadmaps

#### Minimum Qualifications

- Bachelor's degree in Business, Computer Science, Engineering or related area
- Minimum (4+) four plus years of relevant industry experience
- Exceptional interpersonal skills
- Strong analytical skills are mandatory
- Strong facilitation skills are mandatory; must be able to lead meetings efficiently, encourage healthy discussions to gather required information in order to make decisions, and achieve the meeting objectives
- An effective listener and observer possessing the ability to translate knowledge obtained into appropriate action
- Ability to convey information clearly and effectively; excellent oral and written presentation/communication skills
- Ability to design and deliver presentations to broad audiences
- Effectively manages and completes multiple projects concurrently and timely

#### Preferred Qualifications

- Results oriented and possess strong skills in the areas of team facilitation, collaboration, negotiation, problem-solving, stakeholder management, and project management
- Maintains ongoing positive presence with co-workers, customers, other stakeholders and outside entities through professional communications; able to handle and resolve difficult situations
- Requires demonstrated ability to be self-sufficient and self-motivated
- Working understanding of cloud technologies (AWS/Azure/O365), MI/AI and analytics would be an asset
- Working knowledge and experience in Agile project delivery
- Proven experience in digital innovation, design thinking/working backwards techniques and methodologies
