Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We are looking to add an IT Technician to our lively Kamloops branch. Can you stay calm in the face of changing priorities and enjoy putting your service mindset to work If organization is your mainstay, you are energized to work with many different people and have decent IT know-how; let's connect!

Working alongside our team of IT professionals, you will carry out a variety of duties in computer software and hardware support services and some computer programming/scripting. You are the first point of contact for branch staff and need to be comfortable and proficient in dealing with a wide variety of issues and people. Coupled with the unmatched learning and project experience opportunities, do you see yourself excited to contribute to:
- Installing, configuring, and troubleshooting PCs, Windows servers, printers, network devices, and peripheral equipment.
- Providing technical support to staff both in the office and virtual.
- Installing and supporting common office and engineering software applications.
- Support corporate network infrastructure as required.
- Providing excellent service and technical support to staff.

Experience

Our ideal candidate is a recent graduate of a Computer Technology diploma program or a related experience. Experience in administering a Microsoft environment would be an asset.

Does this list reflect your skills, strengths, and abilities
- Working with people gets you energized - you enjoy building relationships and rapport with different types of people.
- You like being in service - supporting the needs of others efficiently and effectively comes naturally to you, you are keen to build an understanding of what people need and how you can help them.
- You like change - you are able to adapt and respond positively to changing conditions, priorities and technologies.
- Collaborative - you genuinely enjoy working cooperatively and effectively to reach a common goal.
- You take initiative - you can identify areas that need attention and provide workable solutions to improve current systems.
- Quality mindset - you take personal pride and accountability in delivering high-quality solutions for colleagues and team members.
- Growth mindset - you see your progress as incremental and you want to learn and grow over time.
- A valid driver's license would be an asset.
