

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

#### ABOUT THE OPPORTUNITY

Weâ€™re seeking a motivated individual with a consulting mindset who understands how to provide strong client service. In this role, you will work alongside our Saskatoon team in translating high-level conceptual designs into preliminary drawings all the way through to detailed design and construction. Our approach to project delivery involves collaborating with a diverse team of engineers, planners and technical professionals at each important step for our clientsâ€™ projects. You can expect to be involved in:

- â€¢ Leading the continued growth of our engineering practice in the local market by leveraging existing client relationships and generating new client opportunities;
- â€¢ Acting as a client leader by developing and maintaining relationships while strengthening our market position;
- â€¢ Leveraging the in-house expertise of our broader engineering practice and working together to develop client relationships and deliver project work;
- â€¢ Providing technical leadership and oversight on our engineering project needs in the Saskatchewan market for a wide range of projects to ensure we are delivering high-quality work to our clients; and
- â€¢ Coaching and mentoring a team of younger professionals - creating the ideal environment for learning, clarity and knowledge transfer.

To ensure a successful launch, we will partner you with coaches, who will help you gain experience across the breadth of our interdisciplinary practice locally and across the company to become a successful consultant at Urban Systems. Our Saskatoon practice is thriving, and we continue to grow our team to serve our clients here and elsewhere throughout the company. The conditions and accommodations around COVID-19 have helped to strengthen our resolve for client service. Now, as much as ever, our business remains in a very confident position. We believe that right now is an incredible opportunity for a Civil Engineer to find a better workplace and more prosperous growth trajectory with our firm.

### Experience

#### ABOUT YOU

Our ideal candidate will have a Civil Engineering Degree with approximately 10 years of relevant post-graduate experience and be registered (or eligible for registration) as a Professional Engineer with APEGS.

We believe a successful candidate would need to possess the following strengths and interests to excel in this position:

- â€¢ Broad civil engineering knowledge and experience (municipal and/or land development experience is an asset);
- â€¢ Proficiency with Microsoft Excel and other MS Office software products;
- â€¢ Ability to lead preliminary and detailed engineering design for municipal, utilities, drainage, site development, or roadways projects;
- â€¢ Act as engineer of record for projects involving design drawings, specifications, cost estimates, schedules and tender documents;
- â€¢ Strong understanding of design guidelines, contract documents, and contract administration;
- â€¢ Understanding of municipal design software is an asset;
- â€¢ Field experience is an asset;

- â€¢ Passion for serving communities throughout Saskatchewan;
- â€¢ Demonstrated strong business acumen and ability to confidently relate to our clients;
- â€¢ Strong project management skills;
- â€¢ Effective communication skills (technical, written and verbal);
- â€¢ Ability to produce high-quality work under challenging circumstances;
- â€¢ Ability to prioritize workloads and meet deadlines;
- â€¢ Ability to work independently and collaborate effectively with others; and
- â€¢ Commitment to ongoing personal and professional development.

## **Work Environment**

### **ABOUT US**

Recognized as one of Canada's top employers, Urban Systems is an employee-owned, inter-disciplinary consulting firm based in Western Canada. In business since 1975, we have over four decades of experience working with a variety of clients, including all levels of government, Indigenous communities, commercial and residential land developers, and the natural resource sector. Our team of 450 people, across multiple branch offices, is committed to helping build vibrant communities of all sizes.

Our Saskatoon practice is located in the heart of the Central Business District in downtown Saskatoon - home to delicious and diverse eateries, a bustling nightlife, gorgeous river trails and outdoor spaces, and a thriving arts and cultural scene. Living and working here means enjoying a wealth of activities for every season and every personality! The City of Saskatoon is close to nature, has a wealth of opportunities for investment and success and is a tight-knit community where you support one another. For further information, see Saskatoon Tourism.

### **OUR COMMITMENT TO YOU**

At Urban Systems, we make significant investments in our people, which is why we take great care to hire those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique culture that sets us apart and provides:

- â€¢ Challenging and interesting project opportunities;
- â€¢ A fun work environment, where hard work accomplishes great things;
- â€¢ Great benefits and work-life balance;
- â€¢ The opportunity to work with industry-leading professionals in a collaborative environment;
- â€¢ Ongoing career development and learning; and
- â€¢ Meaningful rewards and recognition.

## **How to Apply**

If this describes your background, your skills, and your natural talents, please visit our website and submit your resume and cover letter.

Deadline for applications: Wednesday, February 10, 2021 at 11 am CST
