

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Help bring research to life and drive your career forward with the National Research Council of Canada (NRC), Canada's largest research and technology organization.

We are looking for a SAP-PM System Administrator to support our Real Property Planning and Management Branch (RPPM). The SAP-PM System Administrator would be someone who shares our core values of Integrity, Excellence, Respect and Creativity.

The SAP-PM Systems Administrator is responsible for the maintenance, support and enhancement of the business processes around the use of the SAP Plant Maintenance module, which is the NRC's corporate computerized maintenance management system (CMMS). Working in an organization with specialized facilities which include industrial, scientific and research equipment and systems, the incumbent ensures the integrity and consistency of master data, maintenance system procedures and reporting in the SAP Plant Maintenance module (SAP-PM). Reporting to the Regional Site Operations Manager, the SAP-PM Systems Administrator is responsible for reviewing, verifying and correcting entered data, creating and updating equipment information, providing guidance to users, and identifying maintenance activities associated to buildings and facilities that require maintenance processes and life-cycle data.

In regards to the SAP Plant Maintenance (SAP-PM) module, the successful candidate will be the focal point for the design and development of the business principles, the organizational hierarchy and the building equipment records, and coordinating the preventative maintenance program across all major sites in the administrative region of Quebec, but occasionally on all the other NRC sites in Canada. In addition to this, as NRC's SAP-PM subject matter expert, you will ensure that the data, equipment and standards are consistently maintained and contributes to best practices using their SAP-PM expertise and provides guidance to the continuous enhancement of related processes and procedures.

Contribuez a la realisation de travaux de recherche strategiques et poursuivez une carriere prometteuse au Conseil national de recherches du Canada (CNRC), la plus grande organisation de recherche et de technologie au Canada. Nous souhaitons embaucher un Administrateur ou administratrice de systeme du module de gestion de la maintenance (PM) en vue de soutenir la Direction de la Planification et gestion des biens immobiliers (PGBI). La personne choisie doit partager nos valeurs fondamentales relatives a l'integrite, a l'excellence, au respect et a la creativite.

La personne qui occupera ce poste est tenue d'assurer l'entretien, le soutien et l'amelioration des processus organisationnels en ce qui a trait a l'utilisation du module gestion de la maintenance (PM-SAP) qui est le systeme informatise de gestion de l'entretien du CNRC. Travaillant dans une organisation dotee d'installations specialisees qui comprennent de l'equipement, des systemes industriels, scientifiques et de recherche, elle veille a l'integrite et a l'homogeneite des bases de donnees, des procedures du systeme d'entretien et des rapports dans le module de gestion de la maintenance (PM-SAP).

Relevant du Gestionnaire regional des operations d'installations, la personne choisie est tenue d'examiner, de verifier et de corriger les saisies de donnees, de creer et de mettre a jour l'information sur l'equipement, d'accompagner et de conseiller les utilisateurs, et de determiner les activites d'entretien qui se rattachent aux immeubles et aux installations, et qui necessitent un recours a des processus d'entretien et aux donnees sur le cycle de vie.

Pour ce qui est du module PM-SAP, le ou la titulaire doit coordonner la conception et l'elaboration des principes organisationnels, la hierarchie organisationnelle et les dossiers sur l'equipement de batiment ainsi que le programme d'entretien preventif sur tous les sites de la region administrative du Quebec, mais occasionnellement sur tous les sites du CNRC au Canada. Egalement, en sa qualite d'experte du module PM, elle s'assure que les donnees, les normes et l'equipement sont tenus a jour, elle contribue aux pratiques exemplaires en se servant de son expertise liee au module PM-SAP, et elle donne une orientation en vue de l'amelioration continue des procedures et des processus connexes.

Experience

Significant technical experience associated with industrial/research facility operations and in processing maintenance activities.

Significant experience in the implementation, support and maintenance of SAP-PM in an industrial facility for preventive and corrective maintenance.

Experience with the implementation, support and maintenance of other computerized maintenance management system (CMMS) may also be considered.

ASSETS:

Experience in the development of new system architectures for SAP-PM or another CMMS.

Experience in the administration or delivery of training.

Experience using SAP Enterprise System for such integrated modules as controlling and procurement.

Experience technique appreciable associee aux operations d'installations industrielles, de recherche et au traitement des activites de maintenance.

Experience appreciable de l'application, du soutien et de la tenue a jour du module PM-SAP dans une installation industrielle aux fins d'entretien preventif et correctif. Une experience avec tout autre SIGE pourrait etre consideree.

ATOUTS:

Experience de la mise au point de nouvelles architectures de systeme pour le module PM-SAP ou tout autre systeme de gestion de la maintenance des equipements.

Experience de l'administration ou de la presentation d'une formation.

Experience de l'utilisation du systeme d'entreprise SAP pour des modules integres comme le controle et l'approvisionnement.

Education Requirements

A college diploma in a mechanical program such as: building technician/technologist, mechanical engineering technician/technologist or certification in a trade such as machinist, millwright, HVAC mechanic, plumber, Steamfitter or other relevant studies related to the position.

Diplome collegial dans un programme mecanique tel que : technicien/technologue en batiment, technicien/technologue en genie mecanique ou certification dans un metier tel que machiniste, mecanicien de chantier, mecanicien CVC, plombier, mecanicien de machinerie fixe ou autres etudes pertinentes reliees au poste.

Essential Skills

Solid knowledge of SAP Plant Maintenance or other CMMS.

Solid knowledge of equipment and system installed in buildings, sites and /or in research facilities.

Solid knowledge of mechanical and electrical maintenance operations, equipment and systems.

Knowledge of the essential features of Microsoft Office Excel, Word.

Ability to read and interpret construction drawings.

Connaissance appreciable du module PM-SAP ou d'un autre systeme de gestion de la maintenance des equipements.

Connaissances appreciable de l'equipement et des systemes installes dans les immeubles, les emplacements et les installations de recherche.

Connaissance appreciable des operations d'entretien mecanique et electrique ainsi que de l'equipement et des systemes.

Connaissance des fonctionnalites essentielles de Microsoft Office Excel, Word.

Capacite de lire et d'interpreter des dessins de construction.
