

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

We are looking for a highly capable Civil Engineering Technologist to join our Kamloops team. This is an opportunity to join our existing team of professionals providing quality services to our clients throughout BC. In this role, you will benefit from the support of industry professionals while working on exciting and challenging projects that make a visible difference in many communities.

As a Civil Design Technologist, you will be responsible for assisting the team in translating high level conceptual designs from preliminary, through to detailed design, contractor procurement and construction. The entire spectrum of work is something that our team members navigate and explore every day. Specifically, you can expect to be involved in:

- Carrying out design tasks using Civil 3D and/or Infracore assignments;
- Carrying out construction inspections, survey, and field services;
- Supporting project teams with civil drawings, quantity calculations, project coordination and assisting with design changes during construction;
- Complete project documentation and file information;
- Ensuring quality control and verifying accuracy of design;
- Communicating with project leaders;
- Liaising with clients, contractors, and consultants;
- Performing a variety of defined assignments with independent judgment; and
- Advising team on technical challenges and troubleshooting.

Experience

About You

This opportunity is well suited someone with a minimum of one year of experience and a graduate of an accredited Civil Engineering Technology program or equivalent. Given the variety of project needs and a desire to find the right person to fit within our team, we will consider candidates with a range of experience, education, and background in land development, transportation, and/or municipal infrastructure detailed design and production. In particular, we are looking for the following skills, strengths and interests:

- Proficiency in Civil 3D (required);
- Proficiency in or willingness to learn Infracore (required);
- Proficiency with Microsoft Excel and other MS Office software;
- A keen eye for detail and take great pride in your work, both the large and the small projects;
- Ability to work independently to complete tasks and meet deadlines;
- Understanding of construction processes considered an asset;
- Excellent design skills to aid in completing clear drawing sets, and presentation figures;
- Effective communication and writing abilities;
- Graduate from a civil technology diploma program or equivalent;
- Certification or eligible for certification with ASTTBC; and
- Adherence to our safety requirements and reporting.

Work Environment

About Us

Recognized as one of Canada's top employers, Urban Systems is an employee-owned inter-disciplinary consulting firm based in Western Canada. In business since 1975, we have over four decades of experience working with a variety of clients including all levels of government, Indigenous communities, commercial and residential land developers, and the natural resource sector. Our team of 450 people, across multiple branch offices, is committed to helping build vibrant communities of all sizes.
