

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Tenure Track Position in Health Services Research

The Faculty of Health Sciences (the "Faculty") at Simon Fraser University (SFU) invites applications from outstanding career scholars for a tenure track appointment as Assistant or Associate Professor in Health Services Research. The ideal applicant will be expected to develop and maintain a leading national and/or international research program in health services research and contribute to undergraduate and graduate education in this field. They will hold a Ph.D. or comparable qualification in a field related to health services research. Applications from a range of methodological backgrounds are encouraged.

At a level commensurate with the appointment rank, the Faculty seeks a colleague with the ability to (i) develop an independent and robust research program in health services research and (ii) teach and mentor at an undergraduate and graduate level. The preferred applicant will have a Ph.D. or comparable qualification (e.g., MD, RN, or equivalent, plus extensive research training) in health services research, health policy, or other related field; a proven track record of research in this field; demonstrable teaching ability; demonstrated ability to establish relationships with external partners; the ability to work collaboratively and independently; and excellent interpersonal and communication skills. Other desirable traits include: a track record in obtaining external research funding; experience working in transdisciplinary research settings; experience in curriculum development and innovative teaching methods; experience of managing, supervising, and supporting research staff; teaching excellence; and experience in successfully supervising undergraduate and/or graduate students.

The successful candidate will join colleagues in the Faculty's transdisciplinary Research Challenge Area of Policy and Systems Research.

The Faculty is located on the unceded traditional territories of the Coast Salish peoples, including the sÉTMlì"ilwì"ÉTMtaÉ"É¬ (Tsleil-Waututh), kÊ·ikÊ·ÉTMÆ·l"ÉTMm (Kwikwetlem), Sá,µwxl±wÃ7mesh Ášxwumixw (Squamish) and xÊ·mÉTMÎ,kÊ·ÉTMyl"ÉTMm (Musqueam) Nations at the SFU Burnaby campus. Created in 2005, the Faculty's mission is to improve the health of individuals and populations and to reduce health inequities through excellence in interdisciplinary research and education, in partnership with local, national and global communities. The Faculty is committed to

social justice, respect for human dignity, and equity. The successful candidate will join a diverse and dynamic team of more than 50 multidisciplinary faculty members and will have the opportunity to engage with and teach outstanding students in the PhD, MSc, MPH, and BA/BSc programs. The Faculty maintains collaborative agreements and partnerships with the BC government, regional health authorities, the First Nations Health Authority, research centres, and other health agencies. SFU is an advocate for equity and is committed to ensuring its community is diverse and inclusive. We welcome applications from members of racialized minorities, women, Indigenous Peoples, persons with disabilities, persons of various sexual orientations and gender identities, and others with the skills and knowledge to productively engage with diverse communities and contribute to SFU's research excellence. SFU seeks to maintain its commitment to excellence and recognizes that increasing the diversity of its faculty and ensuring an inclusive environment supports this objective. All qualified candidates are encouraged to apply; however Canadian citizens and permanent residents will be given priority.

Under the authority of the University Act, personal information that is required by the University for academic appointment competitions will be collected. For further details of this policy see:

### **Experience**

The preferred applicant will have a Ph.D. or comparable qualification (e.g., MD, RN, or equivalent, plus extensive research training) in health services research, health policy, or other related field; a proven track record of research in this field; demonstrable teaching ability; demonstrated ability to establish relationships with external partners; the ability to work collaboratively and independently; and excellent interpersonal and communication skills. Other desirable traits include: a track record in obtaining external research funding; experience working in transdisciplinary research settings; experience in curriculum development and innovative teaching methods; experience of managing, supervising, and supporting research staff; teaching excellence; and experience in successfully supervising undergraduate and/or graduate students.

### **Education Requirements**

They will hold a Ph.D. or comparable qualification in a field related to health services research. Applications from a range of methodological backgrounds are encouraged.

### **How to Apply**

To apply for this position, please submit a letter of application, a full curriculum vitae, a brief statement of research plans for the next five years (three pages maximum), and a teaching statement which details teaching interests and experience (one page maximum). Please also provide the names and contact details of three academic references. These materials should be submitted electronically to: [fhs\\_recruit@sfu.ca](mailto:fhs_recruit@sfu.ca) with the subject title "Health Services Research". The search committee will begin to review submitted applications on January 14th, 2022. The position will remain open until filled.

Positions are subject to final budgetary approval.
