

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Forests

Merritt

An eligibility list may be established for similar vacancies within the BC Timber Sales Kamloops Business Area (Kamloops, Merritt, Clearwater, 100 Mile House)

Engineering Technologist

BC Timber Sales (BCTS) works collaboratively with regional and district operations to plan, develop and auction a substantial portion of the province's annual available timber volume. BCTS operations are guided by three overarching principles: forest sector safety, reconciliation with Indigenous Peoples and sustainable forest management.

The Engineering Technologist focuses on implementing forest road engineering projects. This position provides engineering technical services to support the achievement of project and program objectives, provides information to operational staff and works closely with the Engineering Officer and the Woodlands Supervisor to ensure environmental, construction and legislative requirements are met.

Qualifications for this role include:

- Diploma in forest engineering, forest management or equivalent related field, plus three years of experience in directly related operational field forestry activities.

OR

- An equivalent combination of education and experience such as five years of experience in one or more area of operational field forestry activities

- Operational field forestry activities include the following:

- o Timber harvesting monitoring/conformance

- o Cut-block development

- o Forest road engineering

- o Timber tenure development and administration

- Applicants must be registered or eligible for registration with the Association of British Columbia Forest Professionals as a Registered Forest Technologist or equivalent.

- Must possess at minimum a valid Class 5 B.C. Driver's License that does not limit or restrict the ability to conduct the duties of the job.
