

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Energy, Mines and Low Carbon Innovation
Victoria

Engagement Geologist

\$70,683.48 - \$89,678.84 annually, plus Grid 3A: 3% recruitment and retention adjustment

The province's mining and mineral exploration sector provides thousands of long-term, high paying jobs, revenue to support provincial and local government services and is an important component of regional economies throughout British Columbia. The Mines Competitiveness and Authorizations Division is responsible for developing, promoting and regulating the thriving, globally competitive, safe and environmentally responsible mining and exploration sectors.

The Engagement Geologist position is part of the British Columbia Geological Survey (BCGS). This government agency provides information for effective mineral exploration, sound land use management and responsible governance.

Qualifications for this role include:

- Undergraduate or graduate degree in Geology, Geomorphology or Environmental Science from a university of recognized standing.
- Minimum of 3 years experience in mineral exploration, environmental geoscience, or government geosciences.
- Registered or immediately eligible* for registration, as a Professional Geologist with the Engineers & Geoscientists British Columbia.

*Note: Immediately eligible is defined as being registered as a professional Geologist in another Canadian jurisdiction and able to transfer that membership to the EGBC within 6 months of employment. It is the responsibility of the applicant to have the EGBC review their qualifications to ensure they have the necessary requirements for registration.

- Experience presenting technical geoscience information to a variety of technical and non-technical audiences.
- Experience with a broad range of computer software including but not limited to MS Office, GIS, graphics packages, geoscience data to produce geological maps and displays materials.
- Experience engaging and working with First Nations communities in the Canadian Cordillera
- Experience analyzing, evaluating, organizing and presenting data.
- Experience working independently/autonomously and making decisions and judgments.
