

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Ministry of Water, Land and Resource Stewardship

This position can be worked from the following communities: Nanaimo, Victoria, Campbell River, Duncan, Port Alberni, Port McNeil, or Courtenay.

Flexible work options are available; this position may be able to work up to 3 days at home per week as per the telework agreement.

Regional Hydrogeologist

\$77,718.46 - \$99,452.15 annually

The Ministry of Water, Land and Resource Stewardship is accountable for integrated land and natural resource management, including objective setting for land and marine environments, effectively managing cumulative effects, and advancing reconciliation with Indigenous peoples, environmental sustainability, and economic growth.

The Regional Hydrogeologist is the primary regional groundwater protection expert and leader. This position oversees groundwater science, monitoring, and groundwater protection regulation compliance. This role will also support the Water Authorizations team as a subject matter expert in hydrogeology.

Qualifications for this role include:

- Degree in a related field (e.g., Engineering, Hydrogeology, Geology, Earth Science), or equivalent as accepted by the appropriate professional association and 5 years related work experience.
- Registration or eligible for immediate registration as a Professional Engineer (P.Eng.) or as a Professional Geoscientist (P.Geo.) with Engineers and Geoscientists BC.
- (Note: Immediately eligible is defined as being registered as a professional in another Canadian jurisdiction and able to transfer that membership to a BC professional association within 6 months of employment. It is the responsibility of the applicant to have their qualifications reviewed by the appropriate body to ensure they have the necessary requirements for registration.)
- Experience or specialized training in quantitative hydrogeology.
- Experience conducting groundwater investigations, including aquifer and well characterization, testing assessment and monitoring.
- Experience developing technical solutions, guidelines and standards for aquifer characterization.
- Experience leading or coordinating interdisciplinary projects.
- Experience writing technical reports.
- Experience analysing and interpreting hydrogeological data.
