

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Senior Experience Designer

Job number: R-1004826

Location: Regina, Saskatchewan

Closing date: March 24, 2023

Language(s) required: English.

Worker Type: Term (Fixed Term)

Term Duration (in months): 13

Strategic mindset and design-thinking experience rewarded

Design and facilitate workshops to help diverse teams define the root problem in complex challenges and explore strategic possibilities.

Put your strategic mindset to work by discovering patterns across the organization and help move FCC forward in an ever-changing environment.

What you'll do:

- Design a plan to lead teams and their stakeholders through problem definition and solution prototypes
- Facilitate and moderate teams and how they approach challenges
- Champion innovative thinking methodologies such as design thinking and lean start-up
- Prepare and coach teams on their next steps
- Keep end-users in mind to guide direction and decisions

What we're looking for:

- Natural curiosity and willingness to learn through experimentation
- Drive to truly understand end-user problems, not just offer ready-made solutions
- Strong communicator who can moderate sessions using a plan that can adapt based on each step
- Ability to work in a fast-paced, fun and collaborative environment

What you'll need:

- A bachelor's degree in business administration or computer science and at least six years of experience (or an equivalent combination of education and experience)
- Design thinking experience is an asset
