

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Closing Date (MM/DD/YYYY): 07/12/2020

Worker Type: Permanent

Language(s) Required: English

Data management expertise required

Build and maintain relationships with partner business units as you analyze their information and data management needs and recommend appropriate solutions.

What youâ€™ll do:

- Facilitate information needs assessments for new initiatives
- Recommend enterprise information to be included in final design
- Support the Data Governance Committee
- Co-ordinate resources needed for remediation and follow-up
- Develop consistent enterprise business terminology
- Build and maintain tools and processes for a business glossary

What weâ€™re looking for:

- Confident communicator adept at facilitation
- Relationship-builder who can manage key stakeholder interactions
- Self-starter with intellectual curiosity and perseverance
- Team player who embraces change and strives to improve and innovate processes
- Organized multi-tasker who pays attention to detail

What youâ€™ll need:

- An undergraduate degree in business, computer science, or math and at least six years of related experience (or equivalent combination of education and experience)
