

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Forests, Lands, Natural Resource Operations and Rural Development
Mackenzie

Operations Technologist

\$60,998.61 - \$69,422.06 annually

An eligibility list may be established for similar vacancies within the BC Timber Sales Prince George Business Area, Mackenzie.

Applicants who do not fully meet the required qualifications may be considered for this position, but at a lower classification.

Bring your operational expertise to this unique opportunity

The Operations Technologist is responsible for developing operating standards, implementing new forest management practices, contract management, and coordinating technical activities. This position also monitors adherence to legislative and environmental standards and provides technical expertise to staff in one or more of the following areas: tenure development, road and block layout, silviculture, timber tenure administration and forestry contract administration. The BC Public Service is an award-winning employer and offers employees competitive benefits, amazing learning opportunities and a chance to engage in rewarding work with exciting career development opportunities. For more information, please see What We Offer.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

• Graduation from an approved technical institute with a diploma or degree in resource or forestry management and three years of experience in one or more operational field forestry activities; OR

• An equivalent combination of education or experience such as five years of experience in one or more area of operational field forestry.

• Operational field forestry activities include one or more of the following:

- o Timber harvesting monitoring/conformance
- o Cut-block development
- o Forest road engineering
- o Silviculture
- o Timber tenure development and administration

• Applicants must be registered or eligible for registration with the Association of British Columbia Forest Professionals (ABCFP) as a Registered Forest Technologist or equivalent.

• Must possess at minimum a valid Class 5 B.C. Driver's License that does not limit or restrict the ability to conduct the duties of the job.
