

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

Are you a recent graduate from a Geographical Information Systems related program Are you passionate about creating meaningful impact in communities and helping to advance their goals Our Urban Systems Kamloops office is searching for Geographical Information Systems (GIS) Technician, to join our team!

As a GIS Technician, you will get to work alongside experienced GIS professionals, engineers, community planners, environmental professionals, and technologists across a wide variety of interesting projects. In keeping with our philosophy of "hands-on" learning and growth, you will be given as much freedom and responsibility as you demonstrate you can handle. In addition to the learning and project experience, you can:

- Create and maintain spatial and tabular information using a variety of software platforms; such as ArcGIS, Excel, and other spatial data tools;
- Demonstrate knowledge of a variety of GIS concepts, practices, and procedures;
- Perform basic spatial analysis and geo-processing tasks;
- Create basic maps to illustrate concepts and identify study areas;
- Digitize maps and other related plans;
- Perform QA/QC tasks; refine data entry processes as required;
- Research, acquire, and import data layers from several different sources;
- Develop and maintain documentation and metadata in line with company standards;
- Actively support our municipal and Indigenous clients; and
- Assist with other GIS tasks as required.

About You

Our ideal candidate is a recent graduate with a completed undergraduate or advanced diploma in Geographical Information Systems or Cartography. We are open to a wide range of programs including Geography, Natural Sciences, Planning, and/or Computer Sciences or other education and are looking for someone who possesses the following skills, strengths, and interests:

- You enjoy working with people, it gets you energized and enthused - you can build rapport with different types of people quickly and understand the importance of building relationships.

- You are excited about technology - you have a passion and aptitude to apply technology to solve problems.
- You embrace a growth mindset - you are committed to and actively seek out opportunities to learn, grow and develop.
- Strong service orientation - responding to requests efficiently and effectively, ability to take ownership and initiative.
- You have a strong knowledge of ArcGIS Pro.
- You are proficient with Spatial Analyst extension.
- You have the ability to compose clear and polished cartographic products.
