

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We are seeking casual Nuclear Medicine Technologists to join our team at Royal Inland Hospital in Kamloops. We have a supportive environment and a strong team approach supported by opportunities for on-going education and career growth.

The Nuclear Medicine Technologist performs diagnostic and therapeutic nuclear medicine procedures in accordance with departmental policies. Duties include preparing patients for examination, operating nuclear medicine equipment, monitoring patient during procedures, preparing, dispensing and administering radiopharmaceuticals, performing routine quality control tests on imaging equipment, monitoring area utilizing appropriate detection devices and disposing of radioactive substances and contaminated items by following established guidelines.

All of our sites are connected through our regional Picture Archive and Communication System (PACS) integrated into our single Electronic Health Record providing real-time patient histories anywhere within Interior Health. We have clinical advisory groups that are working together to ensure best practice throughout Interior Health.

This is a casual position which means there are no guaranteed hours. Work requirements can vary between 0 and 37.5 hours per week. Once hired into a casual role, employees are eligible to apply for internal postings including permanent part-time or full time positions.

There are many opportunities with Interior Health that begin with casual positions and lead to regular employment. Join our team, Apply Today!

Credentials

Current certification with CAMRT

Education Requirements

Successful completion of a Nuclear Medicine Technology program recognized by the Canadian Association of Medical Radiation Technologists (CAMRT).
