

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

BC Public Service Agency: Victoria

This position is excluded from union membership. An eligibility list may be established.

The Director, Privacy, Security and Information Management position is located within the BC Public Service Agency and reports to the Chief Information Officer. This position provides leadership and strategic planning for the following functions: information security services, privacy, information management and Freedom of Information coordination. In this role you approve information security and privacy services and deliverables performed by service providers. You also develop and lead the Ministry Privacy and Information Security Program, ensuring all activity conforms to corporate security policy and legislation, and meets the highest security standards for a variety of sensitive information.

We are looking for an effective communicator, with problem solving and influencing skills.

Stakeholder management and ability to build strategic partnerships is key in this role. You are a seasoned leader with excellent interpersonal and written communication skills and are highly skilled at project direction, and management. This position requires someone committed to teamwork and staff engagement, and the demonstrated ability to lead a high-performing team. If you have strong business acumen, we look forward to your application.

The BC Public Service is an award winning employer and offers employees competitive benefits, amazing learning opportunities and a chance to engage in rewarding work with exciting career development opportunities. For more information, please see What We Offer.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

â€¢ University degree or post-secondary diploma in Computer Sciences, Information Systems or a related discipline and minimum three (3) years of progressive experience; OR,

â€¢ An equivalent combination of education, training (e.g. Certified Information Systems Security Professional (CISSP) or Certified Information Security Manager in good standing) and minimum

seven (7) years of progressive experience.

Progressive experience, minimum must be in each of the following areas:

â€¢ Experience managing professional staff, project teams.

â€¢ Experience developing and implementing IM/IT policy and standards, programs and projects related to security and privacy, for a large, bureaucratic, and/or decentralized organization. This could include public sector entities, multi-provincial or multi-national corporations, etc.

â€¢ Experience conducting security and privacy audits, investigations, and/or other risk management assessments as they relate to software applications and the protection of privacy.

â€¢ Experience managing confidential issues with tact and diplomacy.
