

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Senior Data Analyst and Business Intelligence Specialist

Employment Terms: Full-Time, Permanent

Start Date: ASAP

Branksome Hall, a leading independent International Baccalaureate (IB) World School for girls challenges and inspires students to love learning and shape a better world. Through the unique combination of well-being, outstanding academics, and international mindedness, Branksome Hall students and employees become impactful leaders who give back to their communities. With our values of Sense of Community, Inclusiveness, Creativity and Making a Difference as a foundation, Branksome Hall offers a strong liberal arts curriculum that develops critical thinking and inquiry skills.

The Opportunity:

A key member of the Information Technology (IT) department, Branksome Hall is seeking a data subject matter expert who enhances decision making, monitors business performance, provides actionable insight, and drives operational efficiencies using advanced analytics and statistical techniques.

Reporting to the Manager, Data Architecture, Analytics and Business Intelligence, the Senior Data Analyst and Business Intelligence Specialist is responsible for the management and oversight of all data for the IT department which includes data entry, completing user requests for information and reporting-related inquiries and implementing various Business Intelligence solutions. The incumbent will also work closely with the Finance and Admissions departments to complete various SQL and Blackbaud reporting requests and inquiries.

The Senior Specialist will also collaborate with key stakeholders on design, planning and reporting in relation to the Application Programming Interface (API) as well as other projects using Microsoft Azure SQL and supporting data requirements for internal software development. The incumbent will also complete the reporting and transfer of student data, such as report cards and grades, to governing bodies such as ONSIS and OUAC.

Experience

Candidate Profile:

With a commitment to providing exceptional IT database reporting and analytical support, the Senior Specialist holds a post-secondary degree or diploma in computer science or information systems as well as 3 - 5 years of previous experience in a similar role. An equivalent combination of education and experience will be considered. The successful candidate will be adaptable and flexible with proven experience with T-SQL and some experience with other reporting tools such as SQL Reporting Server, Power BI, or Crystal Reports. Experience with any of XML, Microsoft Azure SQL, SSIS, or Access programs would be an asset.

Committed to providing exceptional customer service, the successful candidate builds strong relationships and engages with various stakeholders with a positive, "can do" approach. You possess strong organizational skills and have the ability to work well both independently as well as part of a team, presenting ideas and solutions in user-friendly language. Proficiency in Microsoft Office 365 as well as the Google Workspace platforms with the ability to learn new software quickly will round out your profile.
