

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Web Address</b>	<a href="https://careers.indigenous.link/viewjob?jobname=CONF01590-8185">https://careers.indigenous.link/viewjob?jobname=CONF01590-8185</a>	
<b>Company</b>	Northwestel	
<b>Location</b>	Whitehorse, Yukon	
<b>Date Posted</b>	From: 2021-07-23	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Telecommunications

### Description

This role works within the dynamic Cable Internet landscape offering opportunities to develop your career and lead projects across Northern Canada. This includes capacity management, optimizing system performance and providing configuration intelligence to assist in proactively ensuring that adequate network and OSS (Operational Support Systems) capacity is provided for. The Configuration Manager will manage network equipment (CMTS) along with the CPE equipment required for the delivery of HFC & RFOG based services. This role is involved in project delivery, infrastructure, and applications management.
