Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Faculty Position in Combinatorics & Optimization University of Waterloo

The Department of Combinatorics and Optimization (https://math.uwaterloo.ca/co) in the Faculty of Mathematics at the University of Waterloo invites applications for one tenure-track faculty position at the rank of Assistant Professor. Associate or Full Professors with tenure will be considered in special cases that substantially enhance the reputation of the department.

The focus area for this position is cryptography, and emphasis will be given to candidates in this area. However, stellar candidates in the research areas of algebraic combinatorics, continuous optimization, discrete optimization, and graph theory, who can greatly enhance the research and teaching profile of the department, are also welcome to apply.

A Ph.D. degree and evidence of excellence in research and teaching are required. Successful applicants are expected to maintain an active program of research, to attract and supervise graduate students, and to participate in undergraduate and graduate teaching. The salary range for the position is $105,000 to $155,000. Negotiations beyond this salary range will be considered for exceptionally qualified candidates. The anticipated start date will be July 1, 2023.

How to Apply

Click "Apply Now"

Interested individuals should apply using the MathJobs site (https://www.mathjobs.org/jobs/list/20728). Applications should include a curriculum vitae, research and teaching statements, and up to three reprints/preprints. In addition, at least three reference letters should be submitted.

If you have any questions regarding the position, the application process, assessment process, or eligibility, please contact combopt@uwaterloo.ca or Chaitanya Swamy, Chair, Department of Combinatorics and Optimization, University of Waterloo, Waterloo, Ontario, Canada N2L 3G1. The closing date for receipt of applications is December 1, 2022.

The University of Waterloo acknowledges that much of our work takes place on the traditional territory of the Neutral, Anishinaabeg and Haudenosaunee peoples. Our main campus is situated on the Haldimand Tract, the land granted to the Six Nations that includes six miles on each side of the Grand River. Our active work toward reconciliation takes place across our campuses through research, learning, teaching, and community building, and is centralized within our Indigenous Initiatives Office (https://uwaterloo.ca/indigenous).

The University values the diverse and intersectional identities of its students, faculty, and staff. The University regards equity and diversity as an integral part of academic excellence and is committed to accessibility for all employees. The University of Waterloo seeks applicants who embrace our values of equity, anti-racism and inclusion. As such, we encourage applications from candidates who have been historically disadvantaged and marginalized, including applicants who identify as Indigenous peoples (e.g., First Nations, Metis, Inuit/Inuk), Black, racialized, people with disabilities, women and/or 2SLGBTQ+.

The University of Waterloo is committed to accessibility for persons with disabilities. If you have any application, interview or workplace accommodation requests, or have questions regarding the position, application process, assessment process, or eligibility, please contact combopt@uwaterloo.ca or Chaitanya Swamy, Chair, Department of Combinatorics and Optimization, University of Waterloo, Waterloo, Ontario, Canada N2L 3G1.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
