

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Forests

Multiple locations

We currently have a temporary opportunity until June 30, 2023. A permanent appointment may result from this temporary appointment.

GIS Analyst

A multi-faceted role in an advanced technical environment

BC Timber Sales (BCTS) manages about 20 percent of the province's allowable annual cut for Crown timber, generating economic prosperity for British Columbians through the safe, sustainable development and auction of Crown timber.

BCTS operates in 33 communities and directly supports over 8,000 jobs across BC.

The GIS Analyst works in the Northern GIS Service Centre and conducts advanced spatial data analysis for the five northern business areas supporting program and management decision-making on resource planning, land management and other program issues.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

For information about the Indigenous Applicant Advisory Service please visit: Indigenous Applicant Advisory Service - Province of British Columbia (gov.bc.ca)

Qualifications for this role include:

- Diploma or degree in geographic information systems, or in a related field, such as natural resources, geography or data science and three (3) years of related experience.

OR

- Equivalent combination of training and five (5) years related experience.
- Experience designing and developing customized spatial/database tools.
- Experience delivering complex spatial/tabular analysis projects in support of client's business needs.
