

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment.

Because we believe connections unite us, possibilities fuel us, and moments define us.

As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are temporarily working from home.

On our team, youâ€™ll work in a fast-paced environment thatâ€™s challenging the status quo in the broadband industry.

Stationed within the Kawartha Lakes you will become a part of a full service telecommunications construction and service provider based in Fenelon Falls, ON. We have been providing quality service for almost 30 years and specialize in total outside HFC and Fiber plant construction. With one of the most modern fleets in the telecommunications construction industry, Cable Cable powered by Rogers is continuously tackling difficult projects with aggressive schedules. We have the equipment and personnel to meet any challenge and we are looking for the new members to join this fast paced and exciting team.

Overview:

Successful Construction Technician candidate must have knowledge of established HFC and fiber to the home construction procedures and techniques including the placement of poles and anchors, familiarity with a wide range of tools and equipment, ability to read and understand prints/maps, safety rules, and operating instructions.

Responsibilities:

Install and repair aerial telecommunications cable

Safely use hand tools and equipment such as; wrenches, drills, ladders, lanyards, saws, lashers

Safely operate mechanized equipment such as; bucket trucks, directional bores, excavators, hydrovacs, locators

Setting up safety perimeter using signage, cones, safety barriers

Flagging traffic when required

Understanding of separation and clearance regulations

Ability to safely work independently and within a crew

Flexibility to work in multiple locations

Ability to travel when travel is required

Experience

Qualifications:

Previous construction experience, preferably in the telecommunications industry.

A valid, unrestricted driver's license (Commercial driver's license preferred but not required)

Knowledge of fiber optic cable installation procedures and techniques

Able to perform all duties in telecommunications construction (such as; pole transfers, maintenance builds, new builds, cable installation, over lash, and strand construction)

Ability to set up & maintain safe work areas

Ability to work in all weather conditions

Work mandatory overtime as required

Must have a valid driver's license

Must be authorized to work in Canada

Preferred Qualifications:

AZ drivers license preferred but not mandatory

Directional Drilling & HydroVac experience preferred but not mandatory
