

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Thermex Metal Treating Ltd.. is in need of Heat-Treating Operator - Metal Processing

Employment Terms: Full Time - Permanent

Duties and Responsibilities:

1. Set up, operate, or tend heating equipment such as heat-treating furnaces, soaking pits, etc.
2. Determine furnace temperatures, current frequencies, heating cycles, and induction heating coils needed, based on degree of hardness required and properties of stock to be treated.
3. Determine types and temperatures of baths and quenching media needed to attain specified part hardness, toughness, and ductility, using heat-treating charts and knowledge of methods, equipment, and metals.
4. Adjust controls to maintain temperatures and heating times, using thermal instruments and charts, dials and gauges of furnaces, and color of stock in furnaces to make setting determinations.
5. Examine parts to ensure metal shades and colors conform to specifications, using knowledge of metal heat-treating.
6. Perform routine maintenance and minor troubleshooting on equipment
7. Perform basic shop cleaning and maintenance

Working Hours: 40 hours per week, 8 hours days - 3 shifts per day: Morning: 06:00-14:30;

Afternoon: 14:00-22:30; Evening: 22:00-06:30

Employment Requirements:

- Education: Completion of secondary school is required
- Work Experience: Minimum 1 year experience in a commercial heat-treating shop, working with atmosphere hardening furnaces for quench & temper, carburizing, stress relieving.
- Added experience with nitriding and / or induction hardening would be very beneficial.
- Must be familiar with furnace operation and hardness testing.
- Physically fit and able to handle an industrial shop environment and working conditions.
