

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce Canadian Indigenous Job Seekers to a new approach to job searching. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Canadian Indigenous Peoples with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

The Flight Operations and Maintenance Manager is responsible for directing and coordinating the operation of the Confederation College Aircraft Maintenance Organization (AMO) and the operation and maintenance control system of the Confederation College Flight Training Unit (FTU). This position is required to be approved by Transport Canada as the Person Responsible for Maintenance (PRM) for Confederation College. The responsibilities include but are not limited to:

- Day to day operational management including supervision of staff, ensuring safety of work environment, promoting safe work practices, managing conflicts, providing direction and training, fostering the team work concept;
- Developing, administering and enforcing regulations and maintaining standards concerning aviation safety including air worthiness of aircraft and aircraft systems and the safety aspects off aviation facilities, equipment and procedures;
- Directing, supervising and coordinating scheduled and unscheduled maintenance, repair, modification, overhaul and alteration of all aircraft and components;
- Ensuring compliance with Canadian Aviation Regulations (CARs), the Approved Maintenance Organization (AMO), Flight Training Unit (FTU), and College Manuals in the accomplishment of maintenance, repair, modification, alteration, and overhaul of 13 college aircraft and their components;
- Establishing and maintaining both the FTU Evaluation and AMO Quality Assurance programs and records;
- Developing, implementing, evaluating, amending, and maintaining procedures, policies, approved maintenance schedules, and training programs;
- Supervising the purchasing, stocking, and procurement of parts and equipment to accomplish the required aircraft inspections and repairs; and
- Working in compliance with the Occupational Health and Safety Act.

Experience

Job Requirements

- Six (6) years' experience in the performance of direct supervision of maintenance activities of the type undertaken by the college, of which six months shall have been obtained within the preceding 2 years;
- Must satisfy the regulatory requirements specified by Transport Canada for holding the positions of Person Responsible for Maintenance Control Systems (PRM and PRMC);
- Must have knowledge of/experience with developing, implementing and administering quality assurance programs and proven ability to maintain and assure compliance with Transport Canada standards and regulations;
- Strong team building, communications, decision-making, planning, conflict resolution and leadership skills;
- Experience with contract negotiation and project management;
- Ability to be thorough, methodical and safety conscious in performing duties;
- A high degree of personal motivation, integrity, reliability, work ethic and responsibility; and
- Must be a "competent person" as defined in the Occupational Health and Safety Act.

Education Requirements

A Transport Canada licensed Aircraft Maintenance Engineer with an M1/M2 category license or CPL and IR (class 1 or 2) that is current and in good standing

Work Environment

Academic setting
