

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Northwestel is a truly northern company. We employ more than 500 skilled northern workers to help in delivering telecommunications service to 96 communities across Canada's North. Together, we are a diverse group of northerners, working to connect our communities through innovative communication solutions designed for life in the North.

We offer a wide range of career opportunities, including positions in information technology, network engineering, customer service, marketing, finance, and human resources.

Northwestel is recognized as one of Canada's best employers for recent graduates. Joining our team means opportunities to grow through education and career development. Plus, competitive wages with a robust benefit package.

We also provide employees with mental health and wellness support tools, such as Telemedicine, Resilience counseling services, and more.

Start your career with Northwestel. Help us build a stronger North.

Northwestel. Our North. Our Home.

### SPECIFIC ACCOUNTABILITIES

- Install, splice, terminate, repair and maintain telecommunications and business systems equipment and associated aerial and underground Outside Plant facilities (copper, coax and Fibre) and related hardware on existing cable plants.

- Required to repair major cable breaks on an emergency basis.

- Understand and perform the safe operation of test gear related to copper, coax and fibre cable.

- Ensures all work activities such as climbing poles, using equipment and operating vehicles are executed properly and in accordance with safety standards, regulations and limitations of the company policies and procedures.

- Responsible for the proper inspection, maintenance and operation of all hand and power tools.

- Required to perform the duties of a Service Technician in the areas of telephony, data, Key Systems, and PABX on an as needed basis.

- Represents the Company through direct contact with customers which may require the need to

explain Company equipment and services.

- Contribute to continuous improvement in the delivery of product or service to internal and/or external customers.
- Create and maintain documentation and paperwork associated with any of the above.
- Actively participate in personal and professional education and development to keep current with required technologies or skills required to effectively manage and resolve customer issues.
- Protects the Company's assets always and in all situations within the employee's control.
- Will be required to be available for call-outs when on Standby status and/or during emergencies.
- May be required to do Remote Central Office and Earth Station work.
- May be required to perform and assist on building maintenance while in the remote locations.
- Travel throughout the Northwestel operating area as required.

As part of the recruitment process for this position, candidates may be required to take pre-employment tests and/or complete work simulation exercise to assess job fit.

As a safety conscious COR, a Certified organization, we have an established and comprehensive safety program. We expect all employees to participate in our organizational health and safety programs, adhering to all safe work procedures focused on continuous improvement.

Northwestel values diversity in the workplace and is committed to the goals of Employment Equity. We strive to achieve a skilled workforce that is representative of the population we serve, and as a Northern company, we are committed to the employment and career development of our Indigenous peoples. Candidates must clearly indicate on their application if they are an Indigenous person, a woman, a person with a disability, or a visible minority if they wish to receive hiring preference.
