

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Closing Date: 11/28/2021

Worker Type: Permanent

Join an Agile development team accountable for delivering solutions that enable organizational change. You™ provide a high level of informal leadership for the team, helping enhance and simplify business process, facilitate decision-making and implement solutions in the most complex business and technical domains.

Experience in Finance and/or a professional accounting designation would be an asset.

What you'll do:

- Document and execute user story acceptance tests
- Provide user story and solution support to team members
- Facilitate problem and solution negotiations with business stakeholders and IT team
- Advise Product Owner on problem analysis, Minimal Viable Product user-stories and prioritization
- Conduct analysis into sprint planning and backlog refinement, and recommend next actions and decisions for Product Owners™ approval

What we're looking for:

- Informal leader and mentor for team members
- Problem-solver with strong facilitation and analytical skills who can manage multiple priorities
- Self-starter with intellectual curiosity and perseverance
- Confident communicator adept at facilitation and comfortable building partnerships with key stakeholders
- Team player who embraces change and strives to improve and innovate processes
- Eye for detail and a passion for building great products

What you'll need:

- Bachelor™s degree in finance, marketing or commerce and at least six years of experience (or an equivalent combination of education and experience)
