

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Closing Date (MM/DD/YYYY): 11/02/2020

Worker Type: Term (Fixed Term)

Language(s) Required: English

Term Duration (in months): 16

Governance Risk and Compliance (GRC) expertise rewarded:

Lead the way in planning and executing projects that solve problems for Enterprise Risk Management, collaborate with specialists and strategists to enhance, maintain and increase efficiency of existing tactics.

What youâ€™ll do:

- Understand and establish specific information requirements using strong communication and relationship building skills
- Solve problems through research and analysis, and find alternate ways of achieving goals
- Maintain risk management software, implement updates and communicate changes

What weâ€™re looking for:

- Problem-solver with in-depth technical expertise
- Relationship-builder who uses collaboration to find the best solutions for business needs
- Organized multi-tasker comfortable in a fast-paced Agile environment
- Strong communicator who translates technical data into information that connects with audiences

What youâ€™ll need:

- Undergraduate degree in computer science, business, commerce or administration and a minimum of six years of experience (or an equivalent combination of education and experience)
