

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Posting 21-16 (Regular full time position)

The following statements are intended to describe the general nature and level of work performed. They are not representing an exhaustive list of all responsibilities, duties and skills required.

Bishopâ€™s University is seeking an Infrastructure Analyst & Administrator for a regular full-time position in the IT department. Reporting to the ITS Operations Manager, the incumbent will analyze, plan, install, monitor, and maintain the Universityâ€™s computing infrastructure. This position has a work week of 35 hours from Monday to Friday with occasional evenings and weekends required.

Nature of Duties & Responsibilities:

- Analyzes the Universityâ€™s IT infrastructure to implement improvements to IT security and reliability of services;
- Administers daily operations of the Universityâ€™s FortiNET and CISCO network infrastructure;
- Administers daily operations of the Universityâ€™s Windows and Linux server infrastructure;
- Coordinates actions of others related to systems projects to ensure their successful delivery in quality and in time;
- Provides second level support to the ITS Client Services Team;
- Deploy and maintain third party software on Windows server and Linux servers;
- Deploy and maintain ISCSI storage arrays;
- Configuration of networks and server infrastructure to ensure secure environments;
- Automate tasks to improve efficiency;
- Performs regular audits of systems (hardware & software) and analyzes logs to anticipate and/or solve potential issues and forecast growth with the computer systems;
- Ensure licence compliance;
- Plans for and responds to service outages and other problems;
- Applies operating system and software updates, patches, and configuration changes;
- Adds, removes, and updates user account information and security access rights;

- Performs, monitors, and verifies all aspects of systems backup and restores;
- Contributes to Bishop's IT evolution by tracking emerging technologies to determine their maturity and applicability to the University, recommending their introduction when applicable;
- Other tasks as assigned.

AFFICHAGE 21-16 (Poste rÃ©gulier Ã temps plein)

Les rÃ©sponsabilitÃ©s suivantes sont destinÃ©es Ã dÃ©crire la nature et le niveau de travail gÃ©nÃ©ral. Ils ne reprÃ©sentent pas une liste exhaustive de toutes les responsabilitÃ©s, tÃ¢ches et aptitudes requises.
