

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Closing Date: Oct 1 2023

What you will do:

Prepare and deliver briefings in various areas of subject-matter expertise to senior management and Governing Council

Publish Staff working papers and contribute to the production of a wide range of Bank publications, including the flagship Monetary Policy Report or the Financial S

System Review

- Build and maintain state-of-the-art modelling and forecasting tools for analysis
- Conduct leading edge economic and financial research, leading towards journal publication, as well as projects relevant for the conduct of monetary policy
- Conduct policy analysis which helps foster a stable and efficient financial system, and well-functioning markets
- Analyze the federal government's borrowing strategy, the investment of Canada's foreign exchange reserves, or advise the Government on the measurement and control of market, credit, liquidity, and operational risks
- Oversee payment and securities clearing and settlement systems integral to the resilience of Canada's financial system to ensure risk is adequately controlled
- Monitor, analyze and interpret macroeconomic and financial developments and their implications for the Canadian and global economy to build intuitive narratives that shape policy recommendations. Support monetary policy implementation and financial stability
- Participate in the staff economic monitoring and projections for the Canadian and global economy using a range of models, turning the latest economic developments into concise reporting and policy advice

What you need to succeed

- You have experience and/or skills in initiating and undertaking in-depth research projects, analyzing complex economic and policy issues, providing insight, discovering alternative approaches, and generating innovative solutions as well as preparing analytical notes and briefing material for senior executives and leadership.

-You have strong communication skills to convey information and ideas clearly and convincingly to a variety of target audiences.

-You have the ability to work on multiple projects, and consequently to prioritize work effectively to ensure follow-through and project completion in a timely manner.

-You have strong empirical skills and in-depth knowledge of quantitative methods using time-series, cross-sectional and pooled data. You are proficient in statistical software and programming languages such as MATLAB, Stata, EViews, R, Julia, Python or VBA.

-You have strong interpersonal skills enabling you to work collaboratively and build relationships with internal and external partners (e.g., government and international agencies, other central banks, financial market participants and organizations, and outside academics) to share knowledge, research and analysis. You are also committed to continuous learning and self-development.

Education Requirements

For your candidacy to be considered, you must have completed a master's degree between 1 January 2021 and 31 December 2024 in one of the following areas of study:

Economics; Finance; Computer Science; Mathematics; Statistics; or Business Administration (MBA).
