Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Web Address	
https://careers.indigenous.link/viewjob?jobname=EF-EC-5E-29-32-EE	
Company	Combinatorics & Optimization, University Of Waterloo
Location	Waterloo, Ontario
Date Posted	From: 2019-10-15 To: 2019-12-14
Job	Type: Full-time Category: Education
Job Start Date	July 1, 2020
Job Salary	$105,000-$155,000
Languages	English

Description

The Department of Combinatorics and Optimization, in the Faculty of Mathematics, (https://math.uwaterloo.ca/co) at the University of Waterloo invites applications for one tenure-track faculty position at the rank of Assistant Professor. The focus of this position is an area of research applied to mathematics for business and financial technology, such as, for example, operations research and optimization, but exceptional candidates who enhance the research profile and teaching needs of the department in combinatorics, may also be considered. Associate or Full Professors with tenure will be considered in special cases.

A Ph.D. degree and evidence of excellence in research and teaching are required. Successful applicants are expected to maintain an active program of research, to attract and supervise graduate students, and to participate in undergraduate and graduate teaching. The salary range for the position is $105,000 to $155,000. Negotiations beyond this salary range will be considered for exceptionally qualified candidates. The effective date of appointment is July 1 2020.

Interested individuals should apply using the MathJobs site (https://www.mathjobs.org/jobs/jobs/14866). Applications should include a curriculum vitae, research and teaching statements, and up to three reprints/preprints. In addition, at least three reference letters should be submitted.

If you have any questions regarding the position, the application process, assessment process, eligibility, or a request for accommodation during the hiring process, please contact combopt@uwaterloo.ca or to Chaitanya Swamy, Chair, Department of Combinatorics and Optimization, University of Waterloo, Waterloo, Ontario, Canada N2L 3G1. Closing date for receipt of applications is December 15, 2019.

The University of Waterloo regards diversity as an integral part of academic excellence and is committed to employment equity and accessibility for all employees. As such, we encourage applications from women, Indigenous persons (First Nations, Métis and Inuit), persons with disabilities, members of diverse gender identities, and others who may contribute to the further diversification of ideas. At Waterloo, you will have the opportunity to work across disciplines and

collaborate with an international community of scholars and a diverse student body, situated in a rapidly growing community that has been termed a "hub of innovation" . All qualified candidates are encouraged to apply; however, Canadians and permanent residents will receive priority in the recruitment process.
