

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We are looking for CNC Operator who has at least 3 years in the Automotive stamping industry. 3 months probationary contract, leading permanent hire.

Prepare and operate CNC machines to perform tasks such as drilling, grinding, milling etc.

Understand specifications of the task at hand and the desired result by reading blueprints, mechanical drawings etc.

Translate instructions into computer commands so the machines can perform the correct function

Prepare and load raw materials and parts onto the machines

Prepare a test run to check if the machines produce outputs according to specifications

Set machines to complete full cycles to fabricate large number of parts

Supervise the machines while they execute the tasks and make any necessary adjustments to produce a better result

Inspect and measure finished products and compare them with requirements to determine if the process has been completed properly

Operate CNC Wire/EDM and milling machines for repairing metal stamping die.

Programming Toolpaths

Personal Suitability

Excellent oral communication, Accurate, Effective interpersonal skills, Flexibility

Equipment and Machinery Experience

Surface grinders, Tapping machines, Tool grinders, Computer numerical control (CNC) machines, Boring machines, Milling machines, Electrical discharge machine (EDM), Sawing machine, Robotic equipment and systems

Measuring Tools

Micrometers, Calipers, Gauges

Work Setting

Automotive manufacturing, General manufacturing

Credentials

Machinist Trade Certification, Tool and Die Maker Trade Certification, Machinist Red Seal Endorsment, Tool and Die Maker Red Seal Certificate

Education Requirements

General CNC Machinist or equivalent
