

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

For over 49 years, Thompson Rivers University (TRU) has taken pride in providing an excellent education to students with a variety of backgrounds and perspectives who are at various stages of their learning journey. TRU is a comprehensive, learner-centred, environmentally responsible institution that serves its regional, national, and international learners and their communities through high quality and flexible education, training, research and scholarship. From traditional academics to trades, from certificates to graduate degrees, TRU offers students a choice from over 140 on-campus programs and 60 Open Learning programs. More than 30,400 students study on campuses in Kamloops, Williams Lake and regional centres throughout the Interior, or through Open Learning in distance or online courses and programs. Research, creation and innovation thrive in TRU's open, flexible learning environment.

The Faculty of Science offers its students a practical, hands-on experience across the spectrum of disciplines in both the lab and the field. With approximately 135 full-time and sessional faculty members across eight undergraduate departments, a cross-disciplinary graduate program, and two research centres, the Faculty is diverse in its scope and range of program offerings. Programs range from certificates, diplomas, undergraduate degrees, to a Master of Science in Environmental Sciences degree. Skills developed in the classroom, the field or in the community, at home or abroad, prepare students for future success in the workplace, graduate studies, or studying within a professional school.

As the Faculty's chief academic and administrative officer, the Dean is responsible to the Provost and Vice-President Academic for providing dynamic and visionary leadership in the articulation and implementation of the Faculty's evolving strategic plan for professional and career development, education, scholarship and outreach in alignment with TRU's mission, vision, and strategic priorities. As an accomplished teacher, researcher and/or practitioner, the Dean will possess an open, transparent and collegial style of leadership with the ability to collaborate with colleagues to plan the Faculty's future.

The successful candidate will have excellent interpersonal and communications skills, be able to demonstrate knowledge of trends and current issues in Sciences and Health Sciences education across diverse settings, and have a record of advocacy, service innovation, scholarly engagement and service to the profession. S/he will have an outstanding academic record, a strong and a deep appreciation for research, teaching and service, and demonstrated experience as an inspirational leader and mentor. An earned doctorate in Science or a related field is preferred, and a strong understanding of the intellectual diversity across the spectrum of disciplines within the Faculty is essential.

TRU is strongly committed to fostering diversity within our community. We welcome those who would contribute to the further diversification of our staff, our faculty and its scholarship including, but not limited to, women, visible minorities, Indigenous people, persons with disabilities and persons of any sexual orientation or gender identity. Please note that all qualified candidates are encouraged to apply; however, applications from Canadians and permanent residents will be given priority.

### How to Apply

This is an exciting and challenging opportunity to serve in a leadership role at one of Canada's most innovative universities. For more information please contact Ashley Brown or Cameron Geldart at (587) 534-2220 or toll free at (888) 505-2908. To apply for this position please forward your application package (current CV, a letter of introduction and a list of three references) in strictest confidence to [ashley@thegeldartgroup.com](mailto:ashley@thegeldartgroup.com)
