

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

We are looking to add an IT Technician to our growing Kamloops branch. Can you stay calm in the face of changing priorities and enjoy putting your service mindset to work? If organization is your mainstay, you are energized working with lots of different people and you have some know-how in IT, let's connect!

Working alongside our team of IT professionals, you will carry out a variety of duties in computer software and hardware support services as well as some computer programming/scripting. You will be a first point of contact for the Kamloops branch staff.

In this role, you will get to contribute to our team by:

- Installing, configuring and troubleshooting PC's, Windows servers, printers, network devices, and peripheral equipment.
- Providing technical support to staff.
- Installing and supporting common office and engineering software applications.
- Generating custom reports and browser-based applications using standard query and programming languages.

Experience

Our ideal candidate is someone with a minimum of 3 years of related experience and a graduate of a Computer Technology diploma program. Experience in administering a Microsoft environment would be considered an asset.

Essential Skills

We are also looking for the following skills, strengths and interests:

- You are comfortable with dealing with a wide variety of issues and people.
- You are a passionate problem solver.
- You are energetic and enthusiastic - someone who thrives in a fast-paced environment.
- You have highly effective verbal and written communication skills.
- You are motivated by a desire to provide excellent service.
- You are self-directed and take initiative to get things done.

Work Environment

About Us

Urban Systems is an employee-owned inter-disciplinary community consulting firm with deep Canadian roots. We are united in our mission to transform communities everywhere into vibrant places where people want to live today, tomorrow, and forever.

At Urban Systems, vibrant communities are everything—including our own work community. Since 1975, we have grown to more than 500 people with 15 offices across Canada. Every day, our purpose-driven team works closely with our clients and their communities to deliver impactful work. We are proud to work with diverse clients including Indigenous communities, all levels of government, commercial and residential land developers, and the natural resource sector. Recognized as one of Canada's top employers, we care for our communities and for our people. It's our differences that make us exciting, and our shared belief in Urban Systems that binds us together. We're searching for the creative and passionate and the curious and courageous to join us in creating meaningful and generational change in communities.

How to Apply
