

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

#### Highlights of the job

As a WWTP Operator, you will have the opportunity to learn new wastewater treatment processes and technologies in an innovative plant environment as well as the opportunity to grow your career with an industry leader in the area of water & wastewater treatment. We are hiring a temporary full-time (for up to 6 months in duration) Wastewater Treatment Plant (WWTP) Operator position working out of the Biological Nutrient Removal (BNR) Wastewater Treatment Plant in Regina, SK. We are accepting applications from current EPCOR Employees and external applicants at this time. Info about Regina: Regina is located on Treaty 4 land and within the traditional territory of the Metis. It is the capital of Saskatchewan and the 16th largest city in Canada - located in the south central area of the province. It is in the middle of the Prairie Provinces with Alberta to the west, and Manitoba to the east, has a diverse and vibrant community and is one of Canada's fastest growing major cities. Regina is a four-season city that generally experiences warm springs and summers, pleasant falls, and cold, dry winters. With hundreds of parks and an abundance of sport and recreation facilities, arts and cultural centres, museums and performance spaces, major attractions and events all year round, there is something for everyone. Libraries and bicycle pathways add to an exceptional quality of life. To discover more about Regina visit: [www.regina.ca](http://www.regina.ca)

#### What you'd be responsible for

As a Wastewater Treatment Plant (WWTP) Operator working in a highly technical facility, you are accountable for monitoring all ongoing operational aspects of the plant which includes ensuring plant operations conform with operating standards, regulatory approvals and procedures, and initiating control process adjustments in response to changing conditions. Reporting to the Operations Lead Hand, the Operator 1 key accountabilities are, but not limited to:

- Overseeing process and equipment monitoring and control.
- Operating and inspecting various pieces of process equipment.
- Reviewing computerized operating and laboratory data.
- Performing general plant operational duties.
- Participating in plant process cleaning activities.

General duties of WWTP Operator 1 will also include:

- Performing routine and non-routine process configuration activities as required by Standard Operating Procedures, including lock-out/tag-out of process equipment and draining, de-pressurization and flushing of isolated equipment.
- Conducting routine process control tests to optimize various processes throughout the plant.
- Performing daily rounds by inspecting the plant process and equipment and using the plant process control computer system (SCADA).
- Performing routine preventive maintenance activities as required by the Standard Operating Procedures.
- Testing and/or collecting, preparation and delivery of wastewater, sludge and other related samples to the laboratory.
- Recording process information onto the daily operations log sheets and into the plant computer system.
- Ensuring work permits and hazard assessments are completed and areas inspected before safe work can proceed.
- Operation of tandem trucks and other equipment such as forklifts. Training will be provided if required.
- The incumbent will be required to participate in On-Call duties, which will result in after-hours callouts.

What's required to be successful

Qualifications, experience and behaviours the successful candidate will possess are:

- High school diploma (GED, or equivalent level of secondary education).
- Level I or Level II Wastewater Treatment Operator certification preferred
- candidates with related WWTP plant experience, but not possessing this level of certification may be considered as a Non Certified Operator.
- Previous experience in a wastewater treatment plant preferred.
- Demonstrated proficiency in applicable computer process software applications, including Microsoft Office Suite of products (outlook, excel word, etc.).
- Previous experience with asset management software and SCADA control systems will be considered an asset.
- Must have a valid Class 3A driver's license or able to obtain a Class 3A driver's license within 3 months of date of hire. (with 6 demerits or less).
- A 5 year Drivers Abstract will be required at the time of hire.
- Must be able to meet the physical requirements of the position. Clearance on pre- placement medical testing and drug & alcohol testing will be required.

As the ideal candidate, the qualifications (skills and behaviours) listed above are supplemented with your ability to perform all functions within defined health, safety and environmental requirements and demonstrate a high level of independence and initiative. You have highly developed written and verbal communication skills in order to develop and deliver both written and verbal reports and additionally, you have the analytical thinking/decision making and technical skills required to effectively carry out their responsibilities. On Team EPCOR, we believe in building an engaging, inclusive and diverse work culture that inspires creative thinking, innovation and adds value to our communities. Our organization is a place where everyone is welcome, and where you can bring your

whole self to work. As part of the Team EPCOR you are expected to act with integrity and uphold a respectful, ethical, and open workplace.
